

# STOP 'EM DEAD IN THEIR FAST TRACKS

Some in Congress want a special bill called Fast Track that will allow President Bush to rush trade agreements through Congress with no changes and minimal review.

If Congress passes Fast Track, we'll see:

- More U.S. job losses,
- More low-paying jobs, and
- More attacks on workers' rights across the globe.

In an outrageous attempt to take advantage of the September 11th tragedy, some members of Congress are now trying to force Fast Track legislation through the House by claiming it is the patriotic thing to do.

Call your member of Congress toll-free this Tues. Dec 4 at

## 1-800-393-1082

While thousands of working families are trying to rebuild their lives, it is outrageous to push controversial legislation that has already cost nearly 1 million manufacturing jobs and promises to cost many more.

Let's stop 'em dead in their fast tracks!
